Cost charged for the use of

VSC resources/computing power

for universities/research institutions or for commercial use

There are no costs charged for the use of resources/computing power in the Vienna Scientific Cluster (VSC) by members of the universities participating in the VSC cooperation.

Costs are charged for the use of resources/computing power in the Vienna Scientific Cluster (VSC) by third parties (members of other universities/research institutions or commercial users).

Nodes are preferably booked as a unit; the prices shown in the table apply to the individual node types and user groups (usage per hour).

If it is possible to use parts of a node (individual cores or GPUs), the billing is pro rata.

All prices given exclude VAT; VAT must be added if appropriate. Subject to changes, errors and mistakes.

The planned times of use must be agreed in advance with the technical person responsible for the VSC.

Accounting is carried out for:

– Universities/research institutions: by TU Wien Großgeräte Investitions- und Betriebs- GmbH (TU-GIB)
Contact: support@vsc.ac.at

– Commercial users: by Advanced Computing Austria (ACA) GmbH
Contact: info@eurocc -austria.at
